SAMAKI RUNGROEUNG CAMBODIA CO., LTD. (SRRC) is a legally established company in the Kingdom of Cambodia, officially registered on 10 March 2021. The company operates in full compliance with Cambodian laws and applicable international regulations.

With a strong focus on professionalism, operational efficiency, and long-term partnerships, SRRC is committed to delivering practical, compliant, and value-driven solutions that support sustainable growth for its clients and partners.

SAMAKI RUNGROEUNG CAMBODIA CO., LTD. specializes in domestic and international trading, two-way import and export, and logistics services, providing efficient supply chain solutions for a wide range of industries. In addition, the company offers consulting, design, and deployment services for telecommunications infrastructure and civil construction projects, covering planning, technical design, implementation, and project coordination.

As a market agent, the company acts as a reliable bridge between manufacturers, suppliers, investors, and local markets, supporting market entry, business development, partner sourcing, and commercial representation in Cambodia and the region.

VISION

Aspires to become a trusted regional business partner in trading, logistics, and infrastructure development, recognized for professionalism, reliability, and sustainable value creation across Cambodia and international market

MISSION

Deliver efficient and compliant trading, import-export, and logistics solutions that connect global suppliers with local and regional markets.

Provide professional consulting, design, and deployment services for telecommunications and construction projects, ensuring quality, safety, and technical excellence.

Act as a reliable market agent and commercial representative, supporting partners in market entry, business development, and long-term growth.

Build transparent, ethical, and sustainable partnerships that create lasting value for clients, partners, and the communities we serve.

CORE VALUE

Our core values guide every aspect of our operations and partnerships:

Integrity

We operate with transparency, ethics, and full compliance in all business activities.

Reliability

We honor our commitments and deliver consistent, dependable results to our clients and partners.

Professionalism

We uphold high technical and managerial standards across trading, logistics, telecommunications, and construction services.

Efficiency

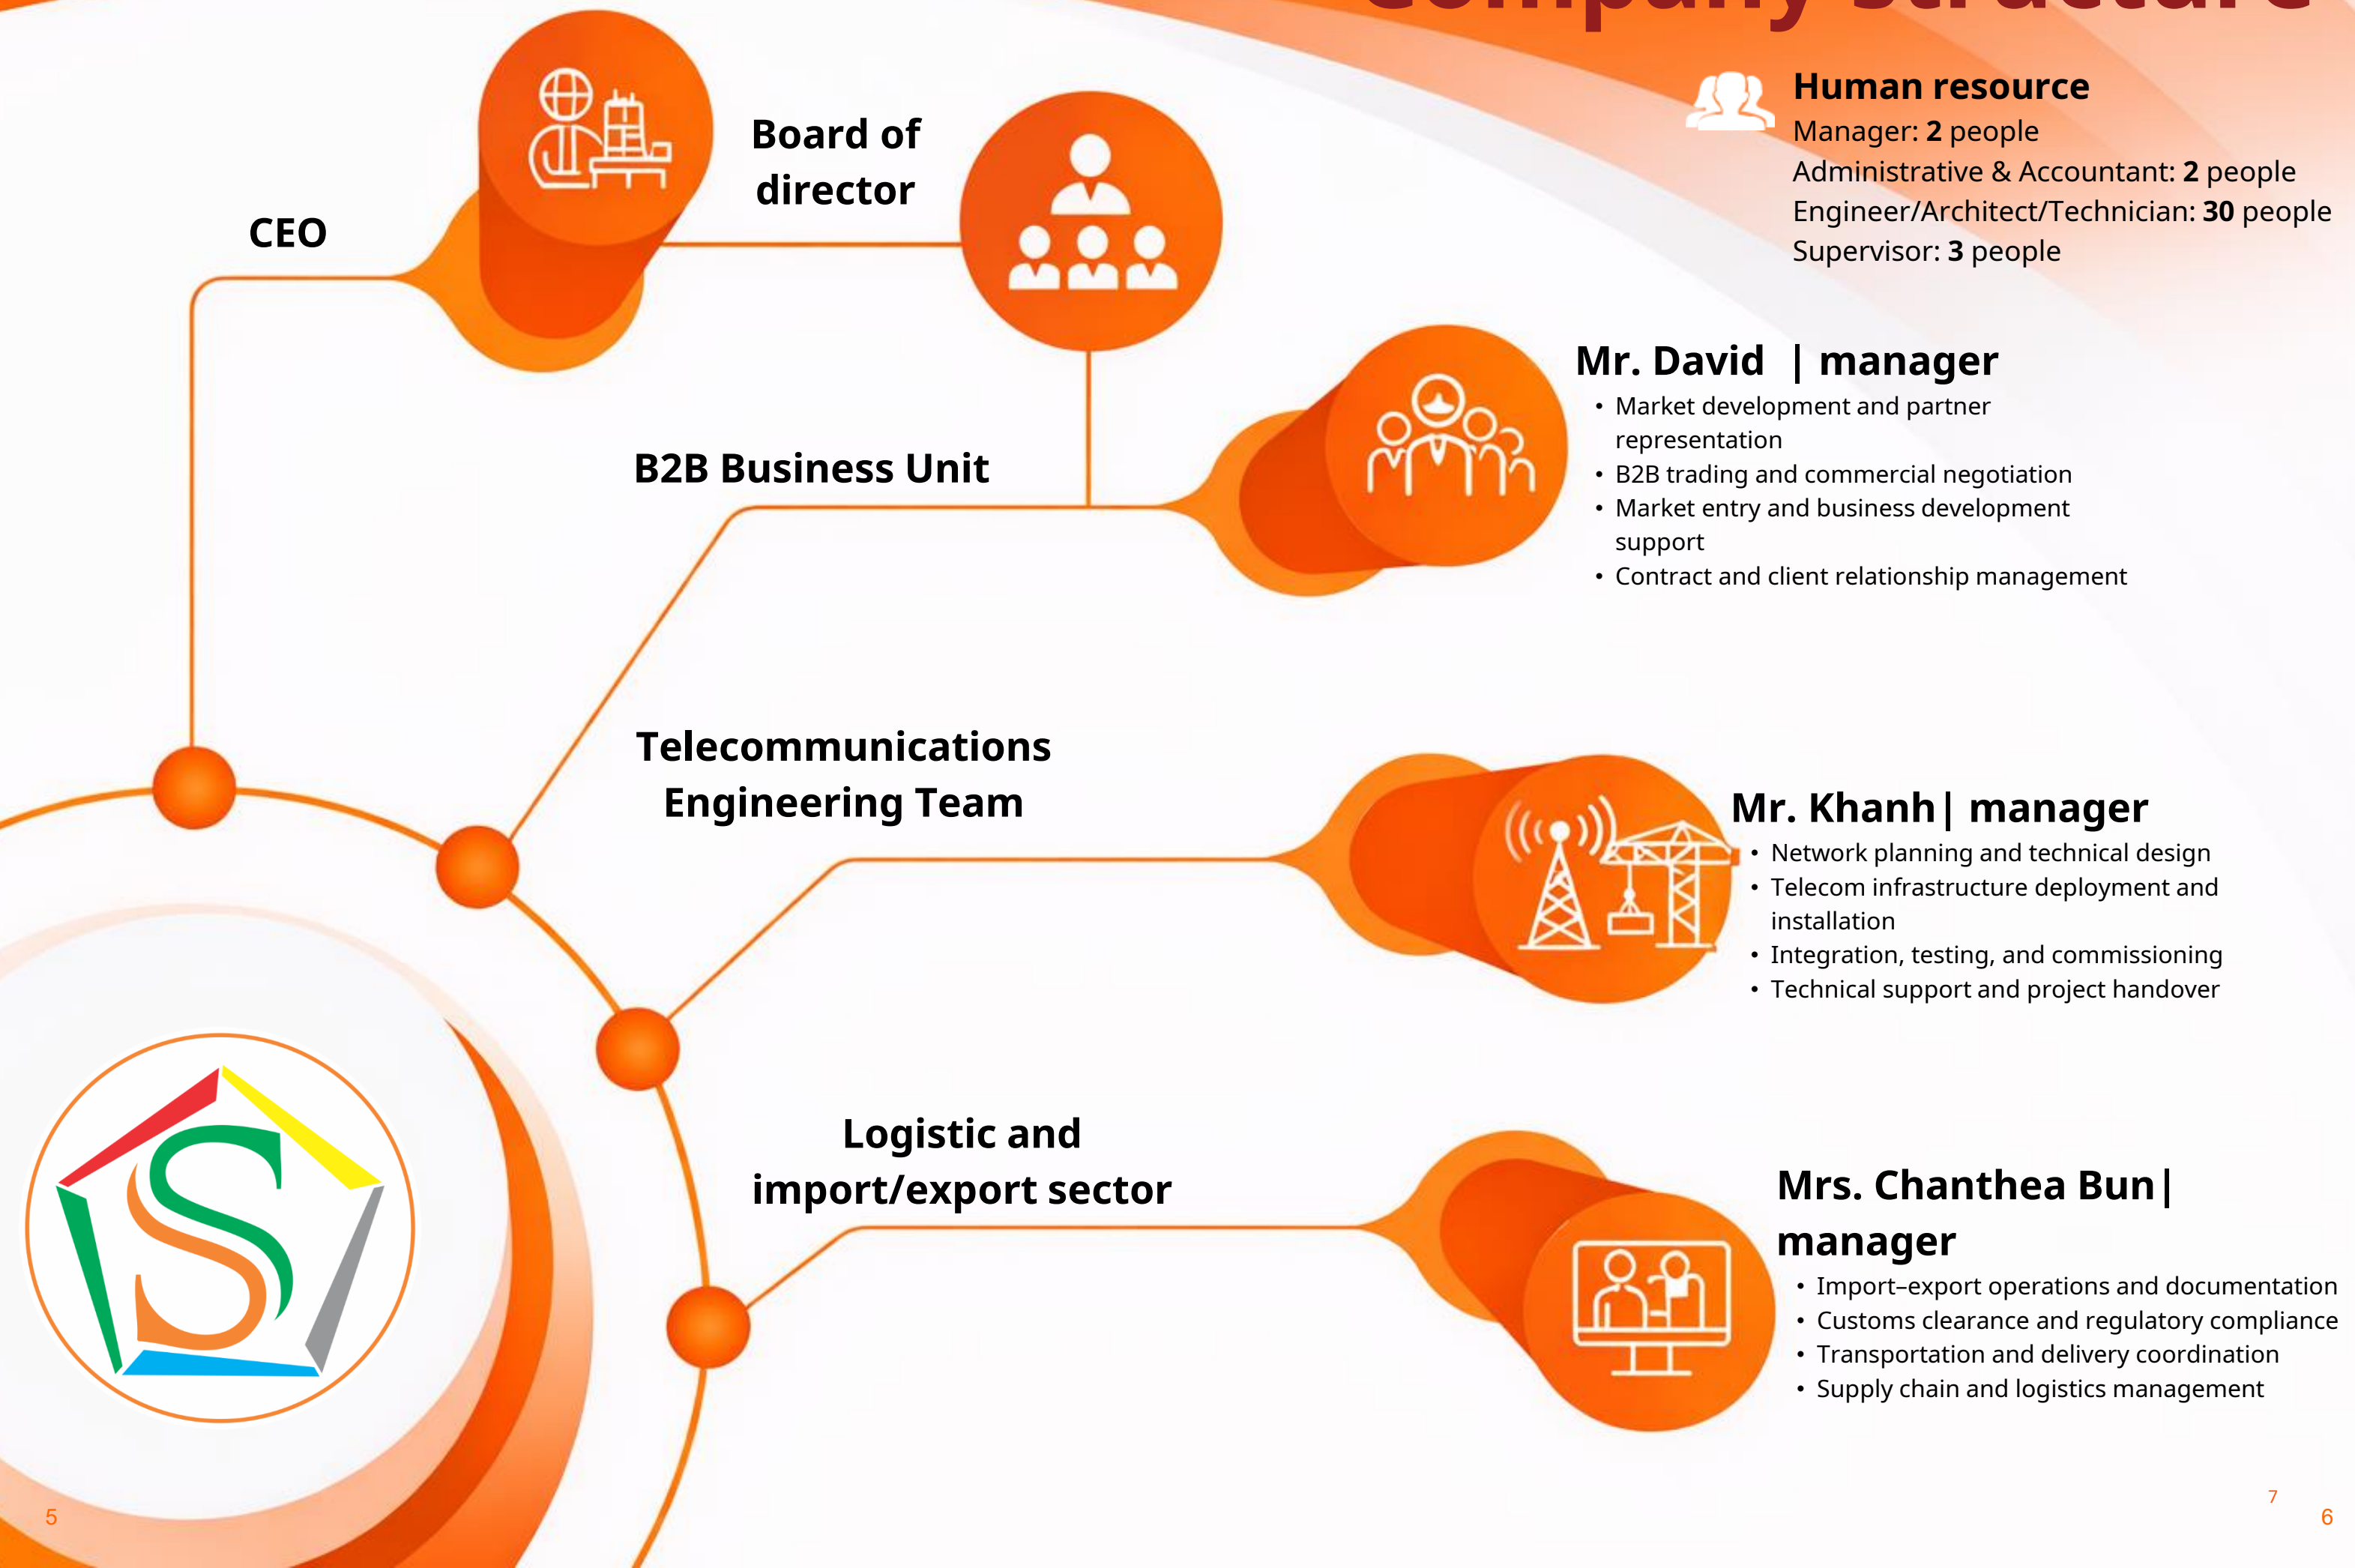

We focus on practical solutions, optimized processes, and timely execution to maximize value.

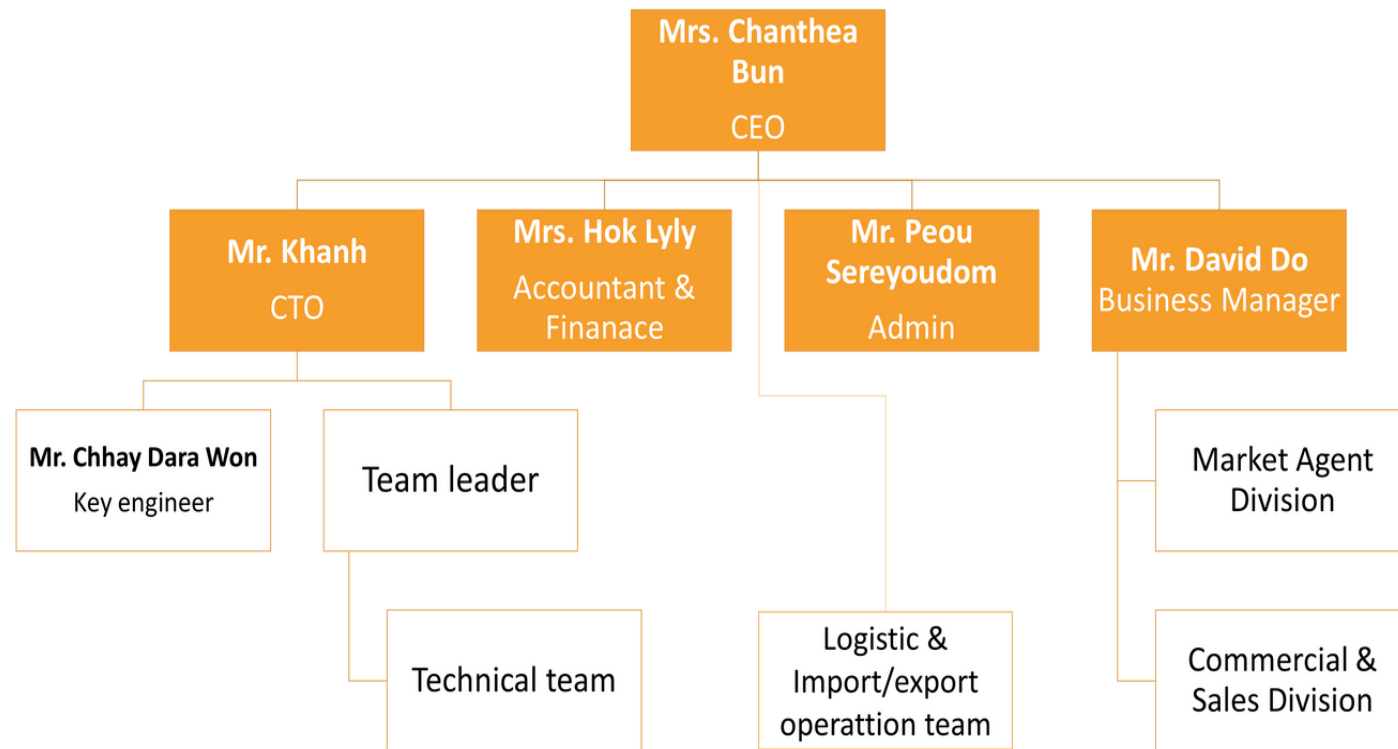

Partnership

We believe in long-term collaboration built on trust, mutual growth, and shared success.

Company structure

CONSULTING ON GOODS EXPORT PROCEDURES

SERVICES TO CONNECT TRADE OPPORTUNITIES

01 | CUSTOMS CLEARANCE SERVICE

We provide declaration and customs clearance services for import and export items: at the airport, border gate, and ICD,... In particular, we have high expertise and skills in specialized goods.

 **UNDERSTAND THE CUSTOMER**

 **EXPERIENCED STAFF**

 **PROFESSIONALISM**

 **CUSTOMS SERVICE PACKAGE**

WHY SHOULD YOU HIRE CUSTOMS SERVICES?

You are not exactly aware of the items that are about to be exported/imported such as : Is it prohibited to export/import? How much is the import/export tax? Do I need to get a license or specialised testing? Therefore, you can not fully estimate the costs for this export/import. - Do you not have a customs declaration officer or a declarant but do not have a staff to directly do the procedures at the customs departments? - If you directly perform customs procedures at the branches, it will not be effective because of the unexpected time and cost.

IMPLEMENTATION PROCESS

02 | INTERNATIONAL SHIPPING SERVICES

SRRC with the advantage of door to door international shipping services, we are confident to provide optimal solutions for your shipments. We have a variety of types of transportation with reasonable costs and are committed to ensuring absolute safety of goods.

SEA TRANSPORTATION

LAND TRANSPORTATION

RAIL TRANSPORTATION

AIR TRANSPORTATION

03 | LICENSE SERVICE

SRRC is a pioneer and leading professional in license application services and specialized inspection of import/export goods. We have experience in obtaining special permits such as **Type Approval (TA)**, and applying for tax reductions/exemptions for legally permitted items.

- ✓ Quick procedure
- ✓ Process expert
- ✓ Regulatory compliance
- ✓ Reasonable cost

04 | CONSULTING ON GOODS EXPORT PROCEDURES

We provide consulting services for exporting goods to foreign markets, especially fastidious markets like VietNam, ASEAN, China, EU, USA...

05 | IMPORT AND EXPORT ENTRUSTMENT SERVICES

SRRC supports import and export services package from warehouse to warehouse by sea (LCL, FCL), road, air, railway. All of them have invoices and vouchers in accordance with the law.

We provide import and export services for individuals and businesses: - No legal status - Not much experience in direct import and export - Want to optimize costs

06 | SERVICES TO CONNECT TRADE OPPORTUNITIES

SRRC support exporters in:

- Order Detail
- Buyer authentication
- International payment risk consultancy
- Marketing skills to expand the export market...

At the same time, with import enterprises, we provide services: - Support to find sources of goods and suppliers - Vendor authentication With the desire to bring the highest value by bringing the most practical opportunities, **SRRC** wishes to accompany and contribute to the development of import-export enterprises.

07 | LOGISTICS SOLUTIONS FOR FACTORIES

Design and Deployment (Telecom)

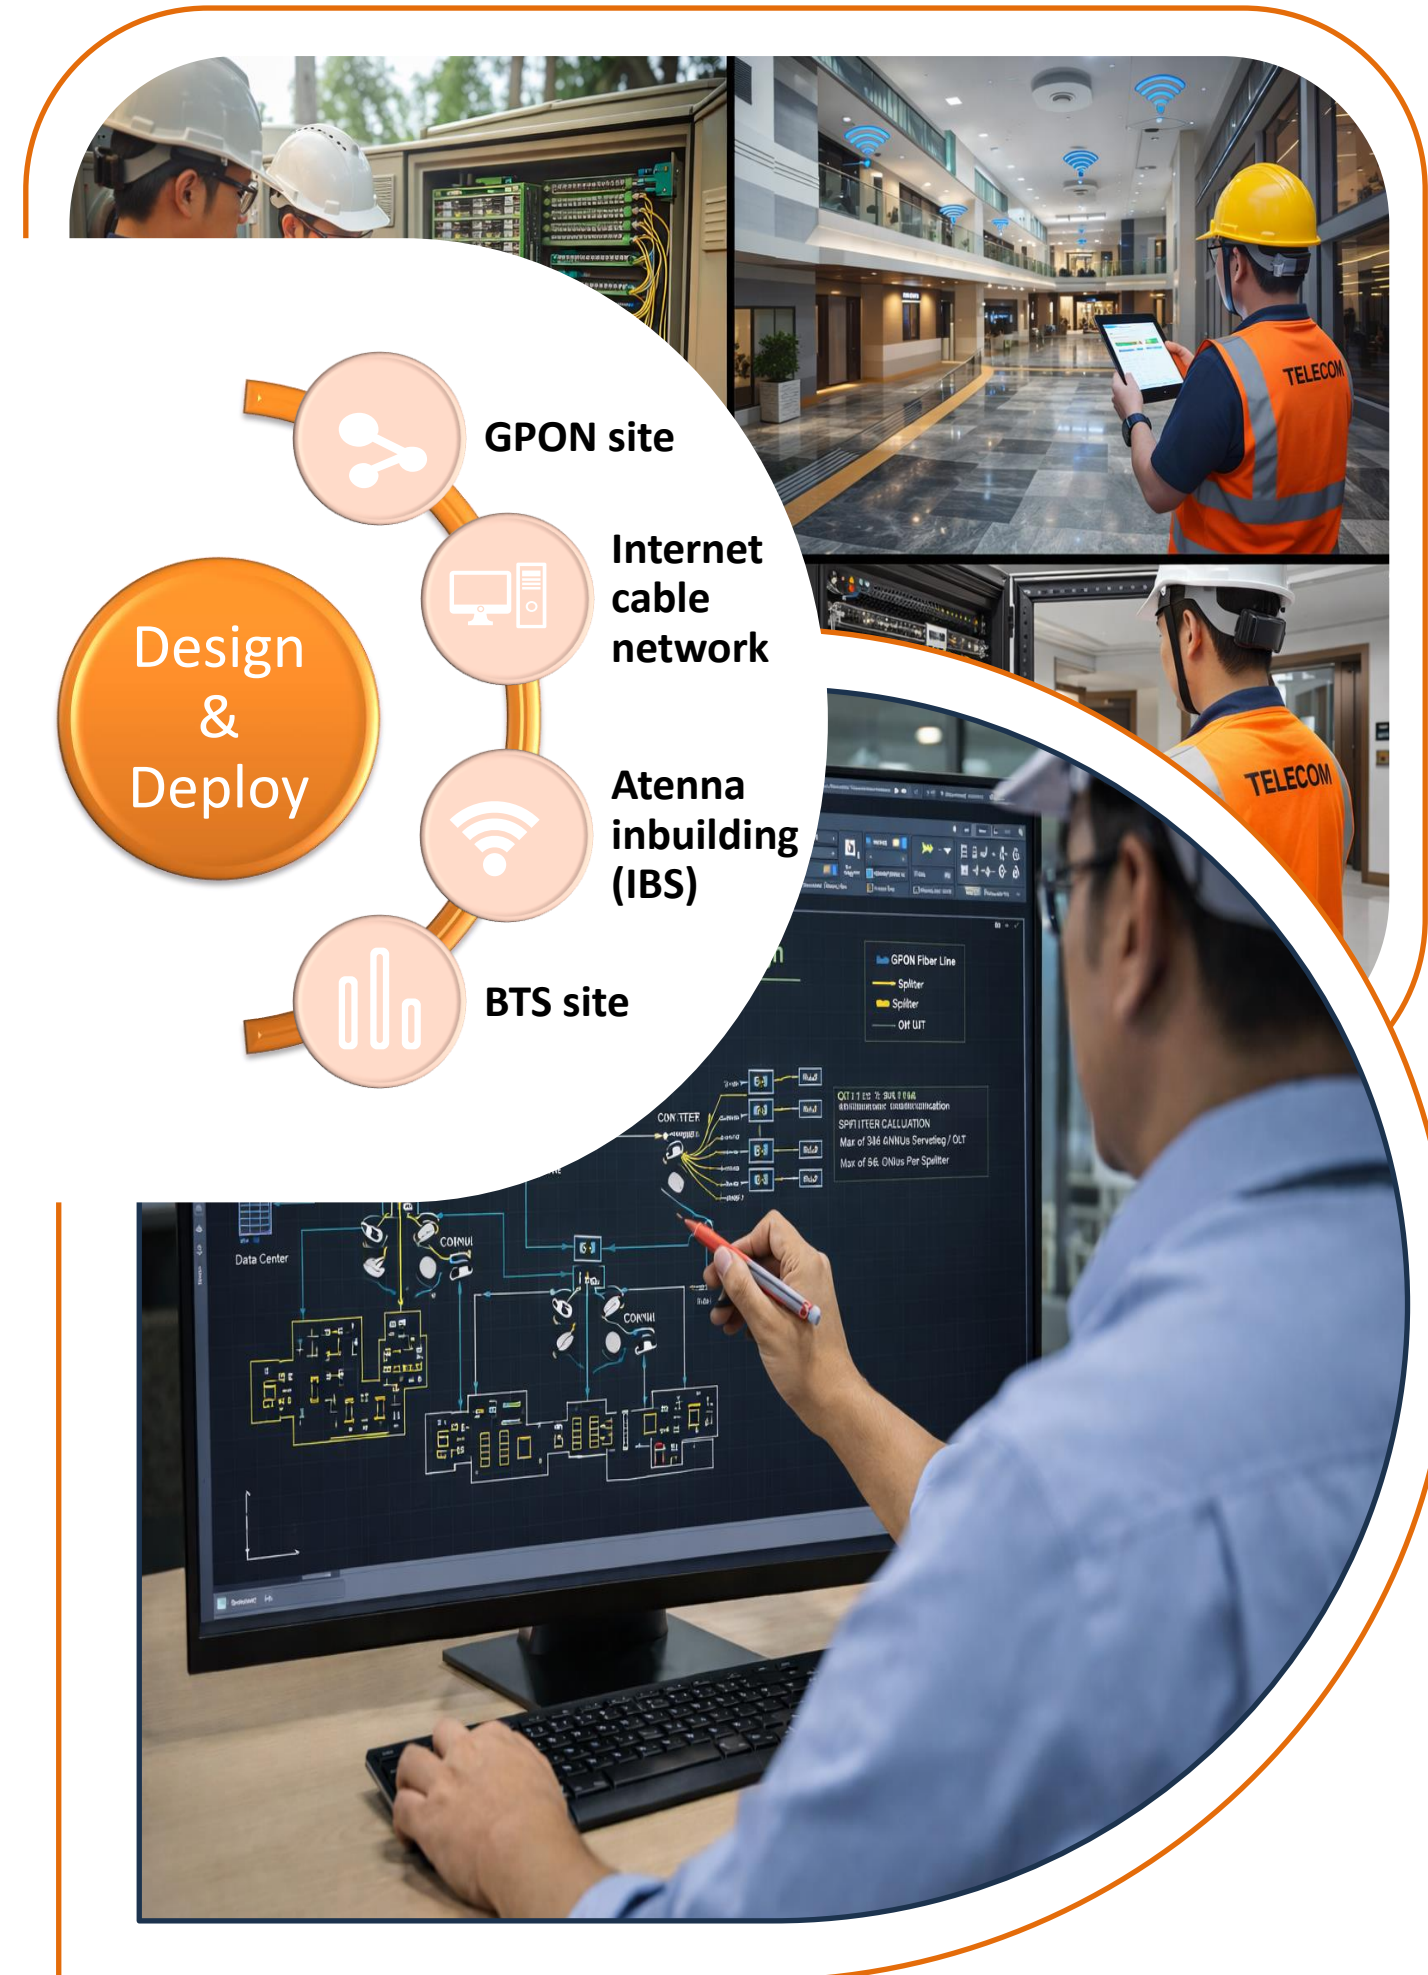

SAMAKI RUNGROEUNG (CAMBODIA) CO., LTD. provides comprehensive consulting, design, and deployment services for telecommunications infrastructure projects, with strong practical experience across access networks, in-building systems, and wireless infrastructure.

The company has proven capability in **designing and deploying FTTH networks**, including both **GPON and AON architectures**, covering network planning, optical topology design, capacity calculation, splitter planning, ODN layout, and preparation of detailed technical drawings and BoQs.

In addition, the company specializes in **end-to-end network design for large buildings and complexes**, including **wired internet, structured cabling systems, and WiFi networks (centralized and mesh architectures)**. Solutions are tailored to ensure seamless coverage, high performance, scalability, and operational reliability for offices, government buildings, commercial centers, and mixed-use developments.

The company also delivers **design and deployment services for wireless infrastructure**, including **BTS sites and In-Building Solutions (IBS)**. Scope of work includes site surveys, radio and coverage planning, civil and technical design, equipment installation, integration, testing, and commissioning to meet operator and regulatory requirements.

Backed by an experienced technical team and hands-on project execution, the company ensures **high-quality implementation, compliance with technical standards, and optimized network performance** for each project.

Design and Deployment (Civil Construction)

We provide comprehensive civil construction solutions for a wide range of projects, including residential houses, technical shelters, office buildings, auxiliary structures, and related infrastructure works.

Civil Construction Works

With strong project execution capability, an experienced technical team, and rigorous management standards, we are committed to delivering durable, high-quality, and aesthetically refined constructions while ensuring schedule adherence and investment efficiency for our clients. Every project is carried out with meticulous attention to detail, achieving a balance between technical requirements, functionality, and long-term value.

Telecom and Civil Construction Works

The company undertakes telecommunications and civil construction works, including infrastructure installation, civil works coordination, and project execution. Activities are carried out with strict adherence to safety, quality, and regulatory requirements, ensuring reliable and sustainable infrastructure development.

Market Access & Business Enablement

Telecom & ICT | Cambodia Overview

We provide **Market Access and Business Enablement services** for companies seeking to **enter and expand in the Cambodian Telecom & ICT market**.

Our role is to help clients **navigate regulations, identify real opportunities, and connect with the right local stakeholders**, while minimizing market-entry risks and wasted time.

We operate as a **strategic advisor and facilitator**, not as a contractor, distributor, or project executor.

Market Access & Business Enablement

OVERVIEW

We provide **Market Access and Business Enablement services** for companies seeking to **enter and expand in the Cambodian Telecom & ICT market**.

Our role is to help clients **navigate regulations, identify real opportunities, and connect with the right local stakeholders**, while minimizing market-entry risks and wasted time.

We operate as a **strategic advisor and facilitator**, not as a contractor, distributor, or project executor.

THE CHALLENGE

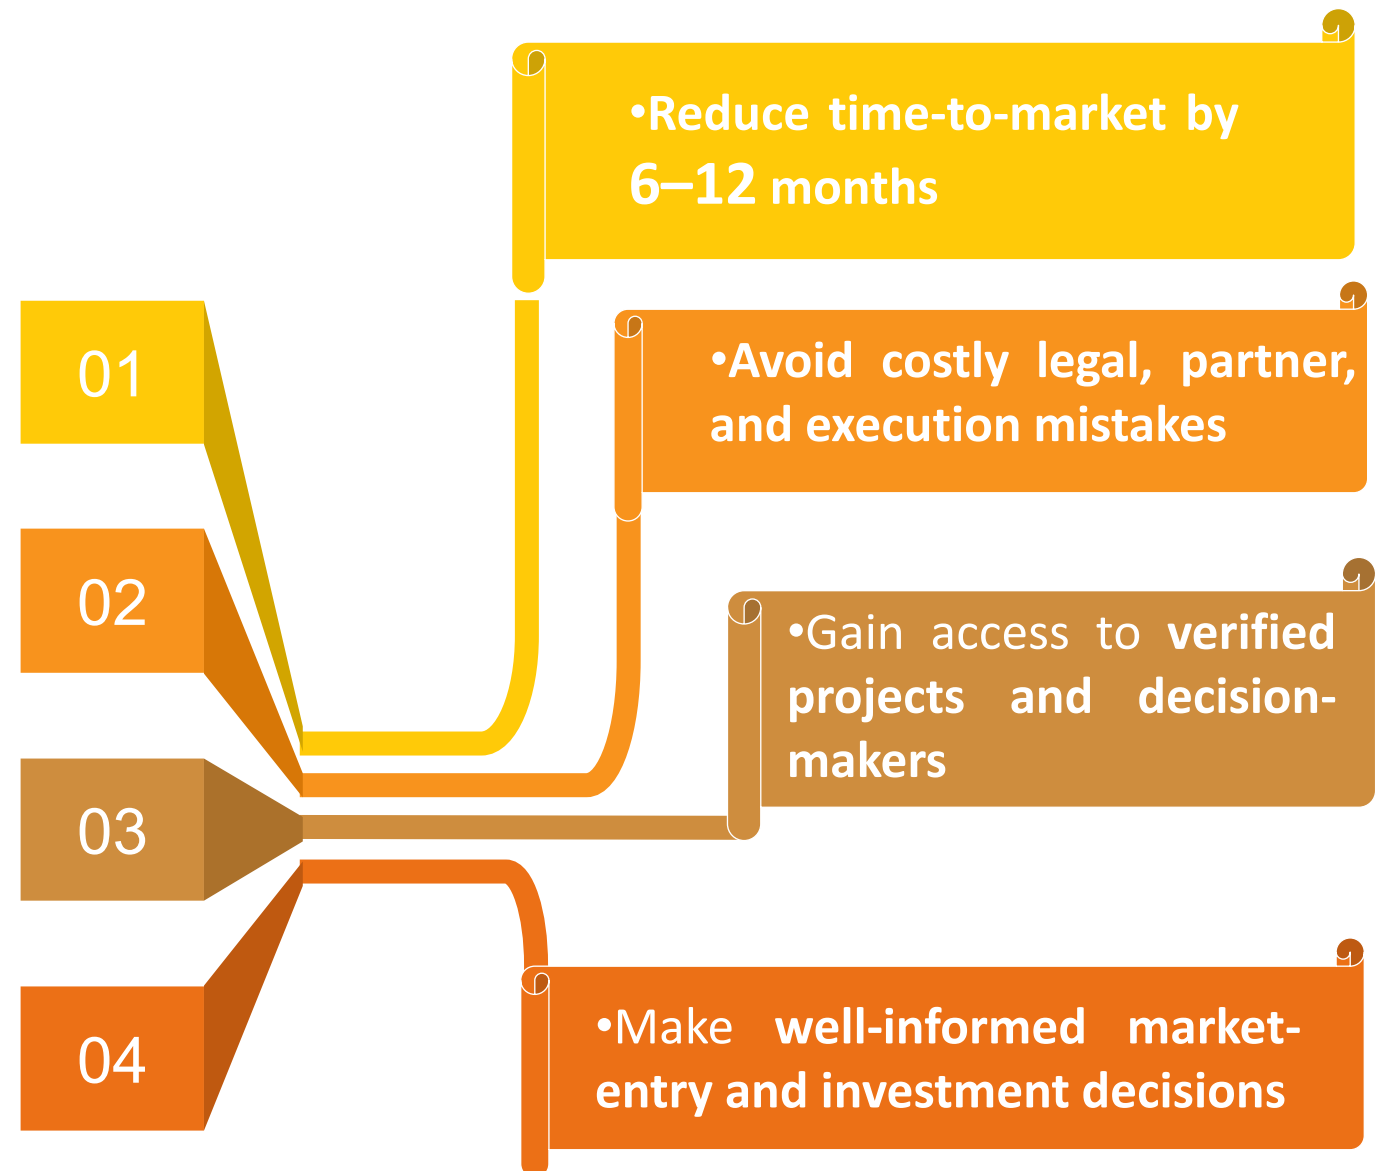

Cambodia offers strong demand in telecom and ICT, but foreign companies often face:

- Complex and non-transparent regulatory processes
- Heavy reliance on local relationships
- Limited visibility of real projects and procurement pipelines
- High risk of choosing unsuitable local partners

As a result, many companies **lose 6–18 months** and significant resources before gaining traction.

OUR VALUE

We help clients:

Market Access & Business Enablement

Market Entry Assessment

A structured analysis covering market potential, regulatory requirements, and entry options, enabling a clear **go / no-go decision**.

Legal & Operational Setup Support

Guidance on company establishment, licensing pathways, banking, tax, and compliance through trusted local partners.

Project Access & Business Matching

Identification of real opportunities and introductions to qualified stakeholders, supported by advisory during early-stage negotiations and bidding.

Strategic Partnership (Selective)

Long-term advisory support and optional equity-based collaboration for selected partners.

Ideal Clients

We work with companies that have **proven products, services, or capital**, clear decision-making authority, and a serious commitment to professional market entry.

Why Us

- Deep understanding of Telecom & ICT ecosystems
 - Strong local insight and trusted relationships
 - Cross-border experience in Southeast Asia
 - Lean, professional, and conflict-free engagement model
- We help companies enter Cambodia **faster, safer, and with the right partners**, so they can focus on execution—not trial and error.

What We Do Not Do

- We do not guarantee project awards or commercial success
 - We do not act as legal representatives or project operators
 - We do not replace contractors or execution teams
- Our scope is **advisory, facilitative, and strategic**.

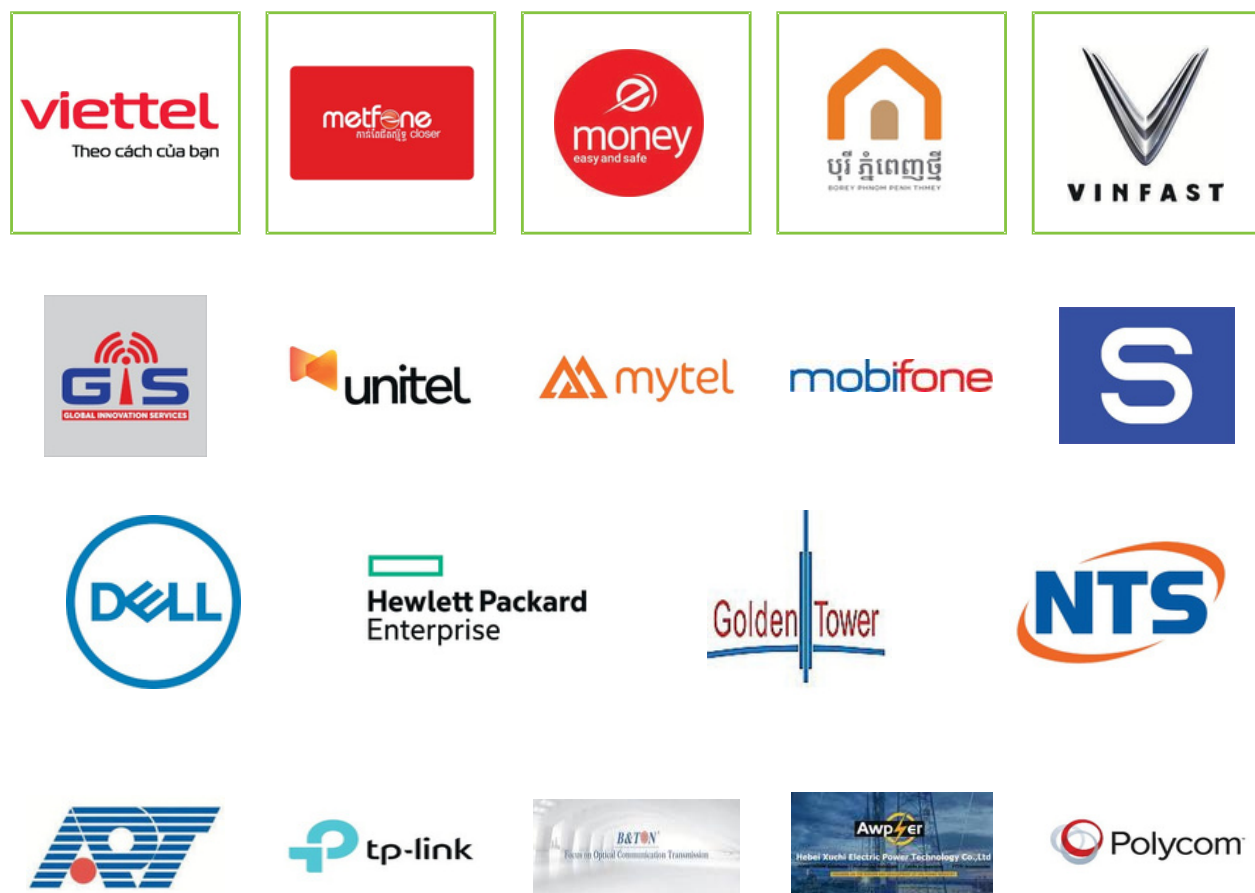

OUR PARTNERS

CUSTOMERS

We are aware that the development of SRRC always has the mark of trust and effective cooperation from partner units, especially from long-term partners of the Company. We hope that in the coming time, together with the company's expansion strategies, there will always be companionship and support from partners and investors on the basis of mutual benefits, strong and solid development.

THANKS !

In the process of development, we always strive with determination, solidarity, attachment and solid bravery to build the brand name SRRC. The projects that we implement are highly appreciated by customers for the prestige and quality of service. The love and trust of customers is the motivation, pride, the biggest success of SRRC. We are committed to improving the quality of products and services to best meet the needs of customers and partners. We hope to continue to receive your attention and cooperation in the near future. Sincerely thank!

Create a new life
